

Site Reliability Engineer with 4 years of experience adept at developing robust monitoring tools, disaster recovery, and automation solutions. Catalyzing efficiency by transforming operations with strategic automations and ensuring high availability of systems.

Education

M.Tech, Software Systems

Birla Institute Of Technology and Science - Pilani, RJ

July 2024 — July 2026

B.E, Computer Science Engineering

Cambridge Institute Of Technology - Bangalore, KA

Aug 2018 — July 2022

Experience

Software Engineer

Jan 2024 — Present

Syncron Software India Pvt. Ltd

Bangalore, KA

- Led zero-downtime cross-account AWS Elastic IP migration for SFTP infrastructure using Python orchestration, staged NLB subnet mapping, Route53 DNS delegation, and rollback utilities.
- Designed CloudWatch monitoring and structured JSON logging to cover 15+ failure modes, enabling low-cardinality Prometheus metrics and multi-period alarm evaluation.
- Implemented custom sshpiperd SFTP proxy routing in Go and created DNS rollback, EIP detachment, and AZ coverage automation to prevent single-AZ outages.

Associate Software Engineer - DevOps

Aug 2022 — Dec 2023

Syncron Software India Pvt. Ltd

Bangalore, KA

- Built custom AWS Transfer Family auth layer with Lambda and API Gateway replacing legacy SFTP system.
- Enhanced CDK/CodePipeline deployment for AWS Data.All using GitHub webhooks and automated releases.
- Added GitHub workflow security scans for deprecated packages, reducing risk by 30%.
- Provisioned Terraform for secure business onboarding and automated ECS log rotation for faster fault analysis.
- Strengthened EKS with FSx-backed storage and disaster recovery automation, reducing downtime by 90%.

DevOps Engineer (Intern)

Apr 2022 — July 2022

Syncron Software India Pvt. Ltd

Bangalore, KA

- Launched Lambda function to push Redshift Database metrics to CloudWatch, reducing issue response time by 45%.
- Assisted upgrades for legacy Terraform repositories, achieving a 40% reduction in deployment time.

DevOps and Cloud Lead

Sept 2021 — July 2022

Google Developers Student Clubs - CIT Bangalore

Bangalore, KA

- Conducted workshops to enhance student knowledge of developer products and platforms by Google, focusing on hands-on experience with Google products. Empowered GDSC members to cultivate new skills collaboratively, growing a community learning environment to frequently engage in creating technical solutions for the communities.

Intern

Dec 2021 — Apr 2022

Defence Research Development Organization

Bangalore, KA

- Streamlined recruitment processes by eliminating reliance on third-party agencies for work history verification, ensuring a more efficient and direct hiring process.
- Researched and implemented blockchain strategies leading to a remarkable 60% increase in overall system efficiency and expense reduction. Additionally, successfully halved the processing time for HR transactions by leveraging a distributed network of peers sharing a ledger for employee records.

Skills

Core: AWS, Azure, Terraform, Python, Go, Kubernetes, Docker, FastAPI, GitHub Actions | **Observability:** CloudWatch, Prometheus, Grafana, Loki, Tempo, OpenTelemetry | **Platform:** ArgoCD, Karpenter, Kyverno, Falco, KEDA, Route53, DynamoDB, KMS, Lambda, SNS, Calico, IRSA

Certifications

Dec - 2023

HashiCorp Certified: Terraform Associate (003)

(Credly)

Sept - 2023

AWS Certified Cloud Practitioner

(Credly)
